FIREPLACES

THE READYBUILT PRODUCTS CO.

1707-23 McHENRY STREET

BALTIMORE 28, MD.

READYBUILT FIREPLACES

THE FIREPLACE has always been a cherished feature, as well as traditional in the American home. It contributes more to the atmosphere of home, congeniality and comfort than any other decorative feature.

Adds Beauty, Cheer and Comfort

Today the main purpose of the fireplace is for its added beauty and decorative value, since the modern home is equipped with a central heating system. The Readybuilt is the latest contribution in fireplace construction and beauty to the modern home. It not only antedates the old-fashioned fireplace but replaces and improves it completely for greater beauty, comfort and charm. It fulfills all modern day fireplace requirements.

Thousands of Satisfied Users

In the field of home building and home beautification, Readybuilt fireplaces have won a position of leadership. Time has proven that this preference on the part of the building trade and general public is well deserved. Thousands of homeowners already enjoy the many advantages of Readybuilds.

Fireplace Cheer for Old and New Homes

Readybuilt fireplaces are made at the factory of special cast composition, reinforced throughout with steel bars and wire mesh, and are shipped complete anywhere, ready to be installed by a handyman in an hour's time. No reinforcing of floors and no cutting of floors, walls or ceilings necessary. Just as easy to install in old homes as houses under construction. It is suitable for use with gas or electric heat and offers every advantage of the old-fashioned fireplace plus many new advantages. A large selection of beautiful designs and models now available, and there is a fireplace to suit any style house or any individual taste.

Select Your Fireplace This Modern and Easy Way

Shipped Anywhere—Easy To Install

(1) Rear View. Facing and returns cast in one piece, thickness 1 inch. To install, cut out baseboard and set fireplace flush against wall. Drive hooks into wall, to which fasten fireplace securely by means of wire attached to two turnbuckles furnished on inside of fireplace.

(2) The curve back Readybuilt Lining fits neatly in opening. The joint between Lining and fireplace should be sealed with cement mortar.

(3) Set Hearth in place on floor in opening of fireplace. Hearth moulding around Hearth adds finishing touch.

(4) Wood Mantel Tops in Mahogany or White finish. Highest grade workmanship and material, all ends and corners mitered.

READYBUILT

(REG. U. S. PAT. OFF.)

FIREPLACES

The Modern Fireplace

Readybuilt is the modern fireplace most suitable for modern day requirements for use with gas or electric heat. It is a decorative achievement that adds beauty, cheer and comfort many times its modest cost.

Readybuilt fireplaces are made of a special cast stone composition with steel reinforced construction. Designed by masters of brick and stone artistry and built by skilled specialists. Patents pending.

No Home Is Really Complete Without a Fireplace

It takes an attractive fireplace to make up the true, inviting home atmosphere—to convert a mere house into a real home. Readybuilt brings a new charm and beauty to the living rooms. Just as easy to install in old homes as new houses under construction—no reinforcing of floors necessary.

Auxiliary Heat

Readybuilt fireplaces are furnished complete for use with gas or electric logs and heaters—thus bringing the comfort and cheer of auxiliary heat by merely striking a match or snapping a switch—without the inconvenience, dirt and mess so common with fire-keeping.

Readybuilts are also adaptable for the construction of wood or coal-burning fireplaces.

Built Complete at Factory—Shipped Anywhere

Readybuilt fireplaces are built complete at the factory of a cast stone composition in four units ready for assembly, instead of being erected brick by brick in the crude, old-fashioned and more expensive hand method. Can be conveniently installed in an hour's time of a handy man. You select from a wide range of completed models. Carefully crated and packed to insure safe delivery anywhere.
